Special Delivery on all Plant Orders.

FOR 1944

Detailed descriptions of the varieties in this list are to be found in our 1943 catalogue. Save your copy.

This year we have discarded most of the temperamental varieties; culling our fields drastically of the ones that did not meet our high standards,—and we believe this list contains the best selection of the finest, non-temperamental dahlias in the country.

Thus, we have cut down our production without sacrificing quality.

DAHLIA PLANTS: The superiority of un-potted plants or rooted-cuttings over the pot-plants is now decidedly proven. They (rooted-cuttings) are easier handled, have less chance to be pot-bound and seems to result in a healthier growth. They can be planted directly upon receiving, or better still, potted for a few days or even weeks until your ground is ready. Order your rooted-cuttings now for April or May delivery. Full cultural instructions with each order. Satisfaction guaranteed.

POT CLUMPS: We have a fine crop of extra large 4 inch pot clumps especially recommended for propagation. These were grown from early plants last spring and allowed to mature in our fields under over-head irrigation. They are full of vitality and will begin to shoot a few days after being placed on the bench. Pot clumps priced the same as roots. Supply limited and can be furnished only on varieties marked (*).

ROOTS: A fine crop of roots on the better varieties enabled us to quote many attractive prices. Recommended for propagation or planting. Clumps furnished at twice the root price until January 1.

DISCOUNT: Six (6) of a variety at the dozen rate, all other prices strictly net. Minimum wholesale order—\$4.00.

To Guarantee Safe Arrival of Rooted Cuttings, 25 cents must be added to all such orders to cover "special delivery."

SHIPPING CHARGES: Shipments sent express collect unless parcel post charges are included in remittance. Charges for Rooted Cutting orders are .35c regardless of size plus .25c Special Delivery. Small root orders remit .60c for parcel post. Large root orders will be shipped express.

ABBREVIATIONS: Poms (Pom Pom), Min. (Miniatures), C., (Cactus), S. C., (Semi Cactus), F. D. (Formal Decorative), I. D., (Informal Decorative), * (Pot Clumps Available).

1943 INTRODUCTIONS

Last summer we grew for the first time, many new introductions and for the benefit of those who were unable to see them growing we make this brief report which is based on mid-western growing conditions in the average garden.

The following we consider good dahlias; Southern Thorobred, White Champion, Indian Giant, King Kong, Wine Dot, Commando, Axford Triumph, Blue Rose and Sunglo. The above are not temperamental and are definite improvements over existing types. May we add that "Thorobred" is the most spectacular giant we have seen in a long time.

Many other of the new ones will do very well in other parts of the country.

1944 INTRODUCTIONS

Our two last years introductions—King Kong and Commando were outstanding nearly everywhere, and this year we again offer two new dahlias which we believe are destined to become leaders:

"Margaret" White F. D. 10x6—From the same strain which produced Begonia Rose and Commando. A pure white that is outstanding in every respect. Highly recommended by those who had it on trial this year. Don't miss "Margaret."

"Baby Rose" Rose F. D. 5x3—The first of a new race of insect-resistant miniatures. A seedling of Begonia Rose with all the latter's good points. Highest award at Louisville, Ky. Color is deep rose.

"Commando"
